COMMITTEE LEARNS DEPARTMENTS CLASH OVER ENFORCEMENT

Recall Mrs. Willebrandt-Army Officer Raised to Power In Bureau

Washington, April 2 .- On the heels of a shakeup which has placed Colonel Lincoln C. Andrews, an army officer for thirty years, virtually in supreme command of prohibition enforcement, the Couzens senatorial committee today resumed its investigation of a clash between the department of justice and the treasury department over enforcement of the dry law. Evidence before the committee showed the two departments were in conflict over the prohibition bureau's action in seizing eastern breweries against the advice of the attorney general.

The treasury favors the seizures of breweries where violation occurred while the department of justice insisted that injunctions be obtained against the violators.

The committee recalled Mrs. Mable Walker Willebrandt, assistant attorney general in charge of dry prosecutions, to further explain her charge that the justice department was "dis-satisfied" with the work of prohibition agents in New England, New York, Pennsylvana, Ohio, Illinois, Missouri, Nebraska, Mostana West Virginia and Michigan. It was in these states the committee was told that the prohibition bureau seized brewery properties against the advice of the attorney general.

Recommendatons already given the committee by Mrs. Willebrandt for improving prohibition enforcement. include the adoption of a policy of using injunction against dry violators and the special training of field agents to locally enforce the dry law. She also advocated higher pay and civil service for dry agents.

The clash between the two department handling prohibition litigation was revealed to the committee by submission of a letter written Secretary of the Treasury Mellon by forme Attorney General Stone, In this

"You will recollect there has been a sharp divergence of views between the prohibition unit of your department and the decision of this department handing prohibition litigation. Your unit has contended that search warrants and libel proceedings are absolutely essential to effective enforcement of the law. This department has felt that since congress in enacting the prohibition act devoted four sections to setting forth injunction proceedings and failed entirely to mention libel proceedings as a matter of policy, the government should adopt the procedure most in harmony with the unquestioned intent of congress.

"Further ag a practicable method it is felt here that the injunction proceeding is by far the most effeetive in the long run, though lacking the spectacular possibilities of

The committee also was told that the attorney general condemned seizure of property because of the heavy expenses incurred in guarding it and the fact that the law continued to be violated through the bribery of guards. This occurred, it was said time and again in Pennsylvania and New Jersey, where the most seizures were made

The seizures also were condemned by Mrs. Willebrandt as a gesture and not an actual effective remedy. "No summary proceedings is possible when violations occur at "Guards may be bribed and beer and a violation occurs, the govern- deputies ment has someone on whom to pin the responsibility and that person for contempt."

BLEEDING THE MERCHANT

DETAIL merchants are a unit in their protest against be-N ing "bled" for every kind of an advertising scheme that can be thought of but as yet no concerted action has been taken, as in Dayton and other cities, against this constant drain upon their resources—their protests being confined to individual objection.

Every time this or that organization has an entertainment or a celebration of any kind its promoters at once figure out that they can make a nice sum of money by getting out a program, a "souvenir edition" or a brief history, interspersing the so-called valuable information with a plentiful amount of advertising for which they charge a "nominal" price of from five to twenty-five dollars. Of course they very seldom have the nerve to claim to the merchant that this advertising space is of any real value but they do most emphatically set forth their arguments along lines which sound much like holding a club over the heads of the retailer. They make the statement that "of course we have several hundred members, all of whom buy goods in the stores of this city and they will naturally feel kindly towards you if your advertisement appears in our program, otherwise, if it does not, they will feel that you are not frienldy towards them and will trade somewhere else."

This is really all bunk. The facts are that there is no return whatever from such advertising and the merchant knows it but he finally lets loose of his money with about the same feeling as does the man who is held up at the point of a gun-he thinks that he must either shell out or else run the risk of having the "promoters" of the scheme turn their fire upon him and possibly knock him out of a certain amount of business. So the facts in the case are that he takes the ad. not for the benefit he will derive from it but because of the harm it might do him if he did not.

In many instances the merchant knows that the very men who are soliciting him have never spent a dollar in his store and probably never will but he fears the conesquences of their "knocking."

If the merchants of this city would get together and name a committee of men whose business it would be to pass upon the legitimacy of all advertising and to issue a written and signed endorsement of those forms of advertising which are really worth while, the retailer, under a strict ruling, could absolutely refuse to throw his money away by taking space in any publications and programs not sanctioned by their ommittee. One merhant in this city made the statement that he has uselessly spent over \$1,000 in the past year for this kind of "fake" advertising. Isn't it about time for the retailers to take such action as will put a stop to this needless and worthless drain upon their advertising appropriations?

BETTER THAN THE AVERAGE

WHEN compared with the reforms sponsored by the Russell Sage Foundation in its recent report. Ohio's marsell Sage Foundation in its recent report, Ohio's marriage laws deserve a high rating. A minimum age limit of sixteen years for the prospective bride is sponsored by the marriage investigators. In Ohio the marriageable minimum is sixteen for girls who have the consent of their parents and twenty-one when do not possess such a certificate,

Strong denunciation was handed out by the investigators against the exploitation and commercialization of matrimony by clerks who benefit through a fee system. This, however, does not apply to Ohio. Although there is a fee charged for licenses in this state, the license clerk obtains no commission and all license money is lumped together for probate division. Thus the clerk is not swayed by greed to issue a license to anyone he knows to be under age or unfit to wed. If people below the minimum age or persons who are diseased or mentally incompetent, obtain a marriage license in this state it is because they have perjured themselves in filling their affidavits. Ohio marriage laws are better than the average to say the least.

EMPTIES SHELVES IN HURRY UP ORDER

The pulling power of advertising in The Gazette and The Republican is illustrated in a case which recently came to the attention of H. E. Eavey, president of the Eavey Company wholesale grocers, who uses extensive advertising in promoting sales of "E Brand products.

An advertisement for "E" Brand Syinach appeared in The Gazette recently, and a week later a salesman for the Eavey Company sold a nice order of spinach to one grocer, where a week before a case of the spinach had been sold with difficulty. After Spring lambs case stock of this grocer had been sold out and he was receiving con-

stant requests for more. Other grocers, in response to the calls produced by the advertising, purchased the spinach in territories where the product had previously not been sold, in order to meet the new de-

The relation of the quality of the product advertised and space used, is brought out by Mr. Eavey in his praise of advertising. Every product sold under the "E" Brand label is guaranteed to be high class. Mr. Eavey has studied his business from a scientific standpoint, so that the quality of his goods assures the purchaser that he gets "the most for the money" paid for anything bearing the "E" Brand

THROWN FROM WAGON

James Jackson, of the K. of P Home, on the Jamestown Pike, fractured his shoulder bone when he was thrown from a wagon at the Sam Andrews farm, Tuesday. He had just begun to work for Mr. Andrews and was bringing a load of fodder into the farm when the horses became frightened and the wagon struck a tree, throwing him into the road way. He was otherwise uninjured and is being cared for at the lodge home.

MODISH MITZI-Look at Styes From a Material Viewpoint. By JAY V. JAY

"How are you going to have it made up?" asks Polly of Mitzi as they look at this bordered polka dot silk. "There's just one style, Polly my child, that it can be made up in. And Mitzi is right (as always) fabric and fashion are made for each other,

The flowered silk also has its influence upon style. The dress that Mitzi wears is of an all over design, yet great care has been taken to make the pattern regular in front of the dress. A dress used to be considered from its style featues. It is considered equally fashionable from the material viewpoint, this season.

Mitzi shows she is right. With a

bordered material one has to choose

a fairly straight line style. And the

border must show at the hemline or at the tunic edge. Polly is convinced

now that style depends on fabric.

They have to be in harmony to get

along with any degree of smartness.

Polly kows what's what. Madame Celeste, the perfect saleslady, doesn't have to tell her that the ensemble suit with dress of printed silk-bordered from the hem is repeated in the lining of the coat. There's an ensemble mode for the material, too. You can't draw a style line between fabric and fashion this season.

Nagley and Turner look to be the best bets to hold down the pitching end in the southpaw division while Coy and Snell are the flower of the righthanders.

William Nagley appears to have first claim on the first base berth while Paul Orr and Arthur will likely draw the assignment to cover second and third respectively. The short-stop problem is rapidly being solved by the fine showing in practice of Husher, Cooper and Schmeman. The

latter is favored for the position.
Filling positions in the outfield presents probably the least problem of all with Funk, Houston and Mulcady looking best in practice. Miller and Orr are giving the trio a hard race for garden positions and several changes may occur.

With Bates, the most promising catcher, out for some time with a split finger, the receiving task will be taken care of by Hunt, Gibson and heal rapidly, there is a possibility that Adair may be shifted behind the

CONFIDENCE HIGH

With reports to the effect that naught but confidence exists in the camps of Billy Hallas, Greek welterweight champ of the world, and Pete Montana, everything is apparently set for their two out of three fall finish match to be staged Thursday night at the Eagles Hall. Whiteman Street.

Hallas, who is now living at Coshocton, primises to spill the so called "Iron Man" in an impressive manner. Both men have agreed to make 145 pounds. This is Hallas's natural weight while Montana wrestles a little heavier but he can make the weight without weakening himself to any great extent. The well muscled Hallas will be making his second showing and that he is liked is evidenced by the advance seat sale. Fans who journey to the Eagles should get their money's worth as both these mat artists are rough and fast and this seems to be what pleases the local fans.

Another two out of three fall, finish match will make up the program, which will precede the Halas-Montana encounter. This willl bring together for the first time Speedy Crawford, local welter and Kid Black, Springfield 145 pounder. Fans are wondering just what the result of the battle between these two will be.

Black has wrestled here several times and his work has always pleased. He took on Harry Kilonis some time back and although ne lost he made things plenty interesting for the Greek. These fellows appear to be evenly matched and this may pan out to be the best bout on the card, the show will get under way at 8:30 o'clock with an out of town official in charge. Popular prices will prevail.

WEATHER DESTROYS LARGE ACREAGE OF WHEAT IN COUNTY

The prolonged winter and the zero weather of February and March has caused the wheat in Greene County to be elmost totally destroyed, according to County Agricultural Agent Ford S. Prince.

About 40,000 acres of Greene County farm land is normally sown in wheat and a large percentage of this amount of the grain has been destroyed by frosts and freezing weather. A large part of the land where damaged wheat was sown has! already been re-sown in oats. Barley and other grains have also been sown

GET AT THE CAUSE!

Many Xenia Folks Are Showing How to Avoid Needless Suffering.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic to the kidneys have brought peace and comfort to

many Xenia people. Profit by this Xenia resident's experience:

E. L. Richards, prop. barber shop, 514 W. Second St., says: "My back was sore and ached constantly. Mornings my back and shoulders were so lame and stiff, I could hardly move. My back was week and it was move. My back was weak and it was hard to stand any length of time. When I stooped I got sharp pains through my back. I had to get up several times at night to pass the kidney secretions. Doan's Pills relieved me of the pains in my back and my kidneys became normal."

Be Better Looking—Take Olive Tablets

If your skin is yellow-complexion pallid—tongue coated—appetite poor you have a bad taste in your mouth-

a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards'Olive Tablets are a purely pregetable compound mixed with oliveral tables. vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet

have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15c and 30c.

"NOT POSSIBLE TO CLASSIFY"

Of all the jays that I despise, that fill me full of grouchy sights, I hate the birds who tell me lies, I wish they were in giory. If they would come with facts galore and talk to me an hour or more, I wouldn't think of getting sore when listening to their story. But when some gink with mug serene says of fine fish he caught 16, I get to feeling mighty mean and think he is a liar. I think there uoght to be a law permitting punching on the jaw when someone tells me his grandpa once ruled as King of Tyre.

ALL MEN ARE LIARS-EXCEPT YOU!

BY MACK SAUER

Oh, I don't mind to know the facts about unwise or questioned acts, or even if a neighbor cracks a joke about a sister. But, Oh! the long-faced gossip bug whose chin would slip down in a jug, who always has a tale to lug—I hope her tongue will blister. If someone errs, she makes it worse; if teacher, student, girl or nurse, she tries to make the life a curse by keeping gossip going. To what she hears she adds a lot of every kind of toomy-rot and for the victim makes it hot-she keeps the chatter growing.

And, too, I loathe the tiresome bore, a sight of whom will make me sore, so that I'll dodge behind his door when he goes strolling by. Yea, though the liars I detest. I put the bore above the rest, for he is found from east to west and sore he makes us all. Whene'er I find one on my jaunts, I always try to dodge his haunts, and, if I met him, kick his paunts, then listen to him bawl

FIRST PARACHUTE REPAIR SHOP WILL BE AT WRIGHT FIELD

Establishment of what is believed to be the first parachute repair shop in the world, has been announced by officials of Wilbur Wright Field,

Fairfield. Anticipating the opening of the new department, various air stations over the country have been shipping in chutes for repairs and the new shop has now nearly 350 awaiting work. Parachutes from all of the air service stations in the United States will be sent to Wright Field for re-

An additional parachute repair shop department will probably be established at flying fields throughout the country, should the new venture at

Wright Field "pan out." The new division will be under the direct supervision of Captain Edward Laughlin with C. W. Rogers, civilian employee inu charge of operations. Already a number of the chutes have been repaired at Wright Field and tested.

The greatest enemy of the parachute is dampness which causes the fabric to deteriorate.

Mrs. Elizabeth Draves of 633 Plymouth St., Toledo, said: "There is nothing to equal Dr. Pierce's Favorite Prescription as a tonic and ner-vine for women. I was suffering from inward weakness which completely undermined my health. I was so nervous I could not sleep, and it I stooped over I would be so blind and dizzy I would have sit down until I recovered from the spell. I had no appetite, lost in weight, suffered from bearing pains, and was so weak I could not do my work. Reading what 'Favorite Prescription' had done for other women, I thought it might help me, so I began taking it. It completely restored my nerves and relieved me of all my weakness. I could eat and sleep well and grew strong. Then I did all my own work, something I could not do before."

COUNTY BUYS TWO **NEW ROAD GRADERS**

With the view of making extensive improvements of county roads during the coming summer months, Greene County Commissioners are announce ing the purchase of two additional graders from the Austin Anderson Company, of Chicago, to assist in repairing roads that have deteriorated during the past winter from motor

The county owns two complete road outfits, which include a large and small grader, roller and other repairing devices and with the additional help of the new graders, roads may be levelled in a much shorter space of time.

The improvement program has not been completed by the commissioners but by the end of the summer, every road in the county needing repair will have been put into first class condition, it is said

CITY AND VILLAGE LIMIT SIGNS PUT UP

. For the first time within the memory of officials of the Greene County Auto Club, modern, regulation city and village limit signs have been placed at the corporation lines throughout the county. Erection of the signs has been completed.

Signs previously in use were simply placed at the limits of the corporation and although serving the purpose of limit signs could not be distinguished as such since nothing more was written on the boards than the name of the next city or village and its distance with a precautionary warning to slow down.

The new signs were distributed by the state highway department on all main roads threading the county and are of regulation type, auto club offi-

COMMITTEE LEARNS **DEPARTMENTS CLASH** OVER ENFORCEMENT

Recall Mrs. Willebrandt-Army Officer Raised to Power In Bureau

Washington, April 2 .- On the heels of a shakeup which has placed Colonel Lincoln C. Andrews, an army officer for thirty years, virtually in supreme command of prohibition enforcement, the Couzens senatorial committee today resumed its investigation of a clash between the department of justice and the treasury department over enforcement of the dry law. Evidence before the committee showed the two departments were in conflict over the prohibition bureau's action in seizing eastern breweries against the advice of the attorney general.

The treasury favors the seizures of breweries where violation occurred while the department of justice insisted that injunctions be obtained against the violators.

Walker Willebrandt, assistant attorney general in charge of dry prosecutions, to further explain her charge that the justice department was "dis-satisfied" with the work of prohibition agents in New England, New York, Pennsylvana, Ohio, Illi-nois, Missouri, Nebraska, Mostana West Virginia and Michigan. It was in these states the committee was told that the prohibition bureau seized brewery properties against the advice of the attorney general.

Recommendatons already given the committee by Mrs. Willebrandt for improving prohibition enforcement. include the adoption of a policy of using injunction against dry violators she has not already passed the borand the special training of field agents to locally enforce the dry law. She also advocated higher pay and civil service for dry agents.

The clash between the two department handling prohibition litigation was revealed to the committee by submission of a letter written Secreletter, Stone wrote.:

the prohibition unit of your department and the decision of this department handing prohibition litigation. Your unit has contended that search warrants and libel proceedings are absolutely essential to effective enforcement of the law. This department has felt that since congress in enacting the prohibition act devoted four sections to setting forth injunction proceedings and failed entirely to mention libel proceedings as a matter of policy, the government should adopt the procedure most in harmony with the unquestioned

intent of congress. "Further as a practicable method it is felt here that the injunction proceeding is by far the most effeetive in the long run, though lacking the spectacular possibilities of so called search and seleur methods."

The committee also was told that the attorney general condemned seizure of property because of the heavy expenses incurred in guarding it and the fact that the law continued to be violated through the bribery of guards. This occurred, it was said time and again in Pennsylvania and New Jersey, where the most seizures were made.

The seizures also were condemned by Mrs. Willebrandt as a gesture and not an actual effective remedy. "No summary proceedings is poswhen violations occur at breweries under seizure," she said. "Guards may be bribed and beer and a violation occurs, the govern- deputies ment has someone on whom to pin the responsibility and that person can be hailed into court and punished

BLEEDING THE MERCHANT

DETAIL merchants are a unit in their protest against be-N ing "bled" for every kind of an advertising scheme that can be thought of but as yet no concerted action has been taken, as in Dayton and other cities, against this constant drain upon their resources-their protests being confined to individual objection.

Every time this or that organization has an entertainment or a celebration of any kind its promoters at once figure out that they can make a nice sum of money by getting out a program, a "souvenir edition" or a brief history, interspersing the so-called valuable information with a plentiful amount of advertising for which they charge a "nominal" price of from five to twenty-five dollars. Of course they very seldom have the nerve to claim to the merchant that this advertising space is of any real value but they do most emphatically set forth their arguments along lines which sound much like holding a club over the heads of the retailer. They make the statement that "of course we have several hundred members, all of whom buy goods in the stores of this city and they will naturally feel kindly towards you if your advertisement appears in our program, otherwise, if it does not, they will feel that you are not frienldy towards them and will trade somewhere else."

This is really all bunk. The facts are that there is no return whatever from such advertising and the merchant knows it but he finally lets loose of his money with about the same feeling as does the man who is held up at the point of a gun-he thinks that he must either shell out or else run the risk of having the "promoters" of the scheme turn their fire upon him and possibly knock him out of a certain amount of business. So the facts in the case are that he takes the ad. not for the benefit he will derive from it but because of the harm it might do him if he did not.

In many instances the merchant knows that the very men who are soliciting him have never spent a dollar in his store and probably never will but he fears the conesquences

If the merchants of this city would get together and name a committee of men whose business it would be to pass upon the legitimacy of all advertising and to issue a written and signed endorsement of those forms of advertising which are really worth while, the retailer, under a strict ruling, could absolutely refuse to throw his money away by taking space in any publications and programs not sanctioned by their ommittee. One merhant in this city made the statement that he has uselessly spent over \$1,000 in the past year for this kind of "fake" advertising. Isn't it about time for the retailers to take such action as will put a stop to this needless and worthless drain upon their advertising appropriations?

BETTER THAN THE AVERAGE

ATHEN compared with the reforms sponsored by the Russell Sage Foundation in its recent report, Ohio's marriage laws deserve a high rating. A minimum age limit of sixteen years for the prospective bride is sponsored by the marriage investigators. In Ohio the marriageable minimum is sixteen for girls who have the consent of their parents and twenty-one when do not possess such a certificate,

Strong denunciation was handed out by the investigators against the exploitation and commercialization of matrimony by clerks who benefit through a fee system. This, however, does not apply to Ohio. Although there is a fee charged for licenses in this state, the license clerk obtains no commission and all license money is lumped together for probate division. Thus the clerk is not swayed by greed to issue a license to anyone he knows to be under age or unfit to wed. If people below the minimum age or persons who are diseased or mentally incompetent, obtain a marriage license in this state it is because they have perjured themselves in filling their affidavits. Ohio marriage laws are better than the average to say the least.

Today's Talks

think about brains, the more respect And this is not for sale. you have for them and the more marvelous do they loom.

The noblest thing that God ever are you never know until you have was the brain of man, and when He had breathed His breath into it and given it life and activity, then He touched it, gave it thought

and made it immortal! Everything that man has touched has helped to illumine this handiwork of the great God.

When you get an expression of a man's mind, you know just where to place him in the affairs of life.

Some men build structures of steel and make them towering buildings or bridges or engines and some men deftly use their hands as agents of their brains to put onto canvas the dream of their hearts and the expression of their silent feelings. They live forever in the things which they help to create anew from already created things.

Then there is the executive-he who studies other men's minds and abilities and helps to harness them for usefulness.

As civilization widens and men's brains become more fertile from use, and more inspired from long labors and the seeing of vast revelations, leaders appear who illumine the earth as the stars do the heavens at night.

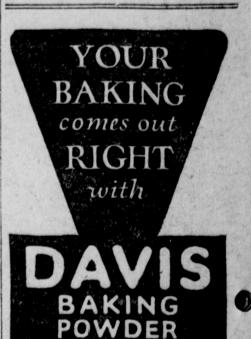

You hear the saying about brains being bought. But you cannot buy brains, any more than you can contract for so much air. Brains are the co-ordinators of freedom. They

EMPTIES SHELVES IN HURRY UP ORDER

The pulling power of advertising in The Gazette and The Republican is illustrated in a case which recently came to the attention of H. E. Eavey, president of the Eavey Company wholesale grocers, who uses extensive advertising in promoting sales of "E' Brand products.

An advertisement for "E" Brand Sylnach appeared in The Gazette recently, and a week later a salesman for the Eavey Company sold a nice order of spinach to one grocer, where a week before a case of the spinach had been sold with difficulty. After Spring lambs the advertisement appeared the single Sheep case stock of this grocer had been sold out and he was receiving con-

The Kitchen Kook Gasoline Stove

50 to 100 per cent more heat than oil stoves shown by comparative tests

The Kitchenkook makes and burns its own gas from common gasoline, producing a clear blue flame entirely free from smoke, soot, and odor, not only while the stove is new but permanently. It is a pressure feed stove which means that the fuel is forced from the supply tank to the generator by air pressure quickly supplied with the brass pump which accompanies each stove. This not only enables the iKtchenkook to operate satisfactorily on low grade motor gasoline but contributes to its marvelous speed and economy. ABSOLUTE SAFETY.

The Kitchen Kook can be turned upside down while burning, with absolute safety.

MODISH MITZI—Look at Styes From a Material Viewpoint. By JAY V. JAY

"How are you going to have it made up?" asks Polly of Mitzi as they look at this bordered polka dot "There's just one style, Polly my child, that it can be made up in And Mitzi is right (as always) fabric and fashion are made for each other,

Mitzi shows she is right. With a bordered material one has to choose a fairly straight line style. And the border must show at the hemline or at the tunic edge. Polly is convinced now that style depends on fabric. They have to be in harmony to get along with any degree of smartness.

The flowered silk also has its influence upon style. The dress that Mitzi wears is of an all over design, yet great care has been taken to make the pattern regular in front of the dress. A dress used to be considered from its style featues. It is considered equally fashionable from the material viewpoint, this season.

Polly kows what's what. Madame Celeste, the perfect saleslady, doesn't have to tell her that the ensemble suit with dress of printed silk-bordered from the hem is repeated in the lining of the coat. There's an ensemble mode for the material, too. You can't draw a style line between fabric and fashion this season.

CENTRAL HIGH COURT SCHEDULE INCLUDES TEN GAMES SIGNED UP

tively arranged, Coach John Ballantyne, announces that the Central High school basketball schedule for 1925-26 is practically complete.

The feature of the next court season may be a week end trip to either Marietta or Zanesville or both. It is being planned by the athletic director to take his charges to at least one of the two cities, which is considered an excellent move, since a victory over either school would place Central on a par with any team in the state. Central will play its first game

A game with either Marietta or Zanesville would be a long stride toward scheduling first rate teams in the state. Although stepping out of the previous class of games scheduled, Central mentors have shown that teams turned out of the East Church Street school during the past few years have proved superior to the class of opponnts they have been called upon to face as a general rule. The tentative schedule follows:

CEDARVILLE NINE IS ROUNDING INTO SHAPE FOR SEASON

Cedarville College baseball team is rapidly rounding into shape in preparation for the opening game with Antioch College, April 9, under the direction of Coach Ed Diedrick who The schedule faced by Central is has worked his charges every night somewhat stiff for a rejuvenated five on the diamond for the past three

> Candidates for the nine are being bunting, running bases and inside baseball has been thoroughly explained by the coach.

Nagley and Turner look to be the best bets to hold down the pitching end in the southpaw division while Coy and Snell are the flower of the righthanders.

William Nagley appears to have first claim on the first base berth while Paul Orr and Arthur will likely draw the assignment to cover second and third respectively. The short-stop problem is rapidly being solved by the fine showing in practice of Husher, Cooper and Schmeman. The latter is favored for the position.

Filling positions in the outfield presents probably the least problem of all with Funk, Houston and Mulcady looking best in practice. Miller and Orr are giving the trio a hard race for garden positions and several changes may occur.

CONFIDENCE HIGH IN CAMPS OF RIVAL WRESTLING STARS

With reports to the effect that naught but confidence exists in the camps of Billy Hallas, Greek welterweight champ of the world, and Pete Montana, everything is apparently set for their two out of three fall finish match to be staged Thursday night at the Eagles Hall. Whiteman Street,

Hallas, who is now living at Coshocton, primises to spill the so called "Iron Man" in an impressive manner. Both men have agreed to make 145 pounds. This is Hallas's natural weight while Montana wrestles a little heavier but he can make the weight without weakening himself to any great extent. The well muscled Hallas will be making his second showing and that he is liked is evidenced by the advance seat sale. Fans who journey to the Eagles should get their money's worth as both these mat artists are rough and fast and this seems to be what pleases the local fans.

Another two out of three fall finish match will make up the program, which will precede the Halas-Montana encounter. This willl bring together for the first time Speedy Crawford, local welter and Kid Black. Springfield 145 pounder. Fans are wondering just what the result of the battle between these two will be.

Black has wrestled here several times and his work has always pleased. He took on Harry Kilonis some time back and although ne lost he made things plenty interesting for the Greek. These fellows appear to be evenly matched and this may pan out to be the best bout on the card, the show will get under way at 8:30 o'clock with an out of town official in charge. Popular prices will prevail.

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study. Dr.Edwards'OliveTabletsareapurely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes,

no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet

have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15c and 30c.

ALL MEN ARE LIARS-EXCEPT YOU!

Of all the jays that I despise, that fill me full of grouchy sights, I hate the birds who tell me lies, I wish they were in grory. If they would come with facts galore

and talk to me an hour or more, I wouldn't think of getting

sore when listening to their story. But when some gink with mug serene says of fine fish he caught 16, I get to

feeling mighty mean and think he is a liar. I think there

uoght to be a law permitting punching on the jaw when someone tells me his grandpa once ruled as King of Tyre.

Oh, I don't mind to know the facts about unwise or questioned acts, or even if a neighbor cracks a joke about a sister. But, Oh! the long-faced gossip bug whose chin

would slip down in a jug, who always has a tale to lug-I hope her tongue will blister. If someone errs, she makes it

worse; if teacher, student, girl or nurse, she tries to make the life a curse by keeping gossip going. To what she hears she adds a lot of every kind of toomy-rot and for the victim makes it hot—she keeps the chatter growing.

And, too, I loathe the tiresome bore, a sight of whom will make me sore, so that I'll dodge behind his door when

he goes strolling by. Yea, though the liars I detest. I put

the bore above the rest, for he is found from east to west and sore he makes us all. Whene'er I find one on my

jaunts, I always try to dodge his haunts, and, if I met him,

FIRST PARACHUTE REPAIR SHOP WILL BE AT WRIGHT FIELD R. H. HARRIS—618 E. Main St. This week we will offer Herring 28c, Pickerel 25c, Mullets 20c, Redsnap-per 35c and catfish 35c.

Establishment of what is believed to be the first parachute repair shop in the world, has been announced by officials of Wilbur Wright Field,

Anticipating the opening of the new department, various air stations over the country have been shipping in chutes for repairs and the new shop has now nearly 350 awaiting work. Parachutes from all of the air service stations in the United States will be sent to Wright Field for re-

An additional parachute repair shop department will probably be established at flying fields throughout the country, should the new venture at Wright Field "pan out."

The new division will be under the direct supervision of Captain Edward Laughlin with C. W. Rogers, civilian employee inu charge of operations. Already a number of the chutes have been repaired at Wright Field and tested.

The greatest enemy of the parachute is dampness which causes the fabric to deteriorate.

SORRY IF I STARVE

Mrs. Elizabeth Draves of 633 Plys. mouth St., Toledo, said: "There is nothing to equal Dr. Pierce's Favorite Prescription as a tonic and ner-vine for women. I was suffering from inward weakness which completely undermined my health. I was so nervous I could not sleep, and it I stooped over I would be so blind and dizzy I would have sit down until I recovered from the spell. I had no appetite, lost in weight, suffered from bearing pains, and was so weak I could not do my work. Reading what 'Favorite Prescription' had done for other women, I thought it might help me, so I began taking it. It completely restored my nerves and relieved me of all my weakness. I could eat and sleep well and grew strong. Then I did all my own work, something I could not do before." All druggists. Tablets or liquid.

Send 10c for trial pkg. to Dr. Pierce's Invalids' Hotel in Buffalo. N. Y., and write for free advice.

COUNTY BUYS TWO NEW ROAD GRADERS

improvements of county roads during the coming summer months, Greene County Commissioners are announcing the purchase of two additional graders from the Austin Anderson Company, of Chicago, to assist in repairing roads that have deteriorated during the past winter from motor

The county owns two complete road outfits, which include a large and small grader, roller and other repairing devices and with the additional help of the new graders, roads may be levelled in a much shorter space of time.

The improvement program has not been completed by the commissioners but by the end of the summer, every road in the county needing repair will have been put into first class condition, it is said

CITY AND VILLAGE LIMIT SIGNS PUT UP

. For the first time within the memory of officials of the Greene County Auto Club, modern, regulation city and village limit signs have been placed at the corporation lines throughout the county. Erection of the signs has been completed.

Signs previously in use were simply placed at the limits of the corporation and although serving the purpose of limit signs could not be distinguished as such since nothing more was written on the boards than the name of the next city or village and its distance with a precautionary warning to slow down.

The new signs were distributed by the state highway department on all main roads threading the county and are of regulation type, auto club offi-
